12/15 - 08/16

### ESPN

Motion graphics designer and editor. Whether controlling real-time graphics in the control room, designing custom elements and transitions, or creating long-form narratives for air, ESPN broadcast standards and time constraints were always met or exceeded.

05/11 - 08/12

### YNN NEWS TIME WARNER

Media editor in the Ingest Department of Austin's premiere 24 hour news channel. The bulk of the workload involved editing raw content into a polished product for air, using various platforms and output compressions for TV and web. Also responsible for satellite uplinks and communication.

09/08 - 11/10

### JAMES DUGAN INC.

As a unique and versatile agency, complete with full production team and studio, many hats were worn during the production of multiple seasons of three television shows and an endless stream of commercials. From producing, directing, writing, and editing, it was a lot of everything here as I led production teams from start to finish of projects.

01/06 - 02/14

### FREELANCE VIDEOGRAPHER/EDITOR

As a freelance videographer and editor there are no limits. From shooting focus groups or legal depositions, television and web commercials, documenting an event, or helping to bring a story and creative vision to life, this is a world full of varying experiences.
